SUB.—*Import Policy for Registered Exporters for the year April, 1967 March, 1968—Revised procedure for submission of export documents.*

No. 114-ITC (PN)/67.—Attention is invited to the Import Policy for Registered Exporters contained in part "B", Section III of the Import Trade Control Policy Book (Red Book) for the year April-1967-March 1968 issued under the Ministry of Commerce Public Notice No. 32-ITC (PN)/67 dated 1-5-1967, as amended from time to time.

2. In accordance with the provisions contained in para 18 of the aforesaid policy, the Registered Exporters of items other than gem and jewellery and exposed cinematographic films are required to submit, among other documents, the following documents along with the applications for grant of replenishment licences to establish the fact of export:—

- (a) Shipping bill duly authenticated by Customs (except in case of exports by post or V. P. P.);
- (b) Bill of lading/airway bill duly attested by the Shipping Company/Airway Company (Postal receipt in case of export by post);
- (c) Invoices duly attested by the negotiating banks.

3. It has been represented on behalf of the exporters that the production of the above-mentioned documents entails an avoidable waste of time and energy on their part and that some means should be found to obtain certification of the exports effected by them from the Authorised Dealers in Foreign Exchange, through whom their shipping documents have necessarily to pass in accordance with the Foreign Exchange Regulations. The position has accordingly been reviewed by the Government and it has been decided that in respect of exports made on or after 1-10-1967, and on which replenishment licences are to be claimed, the Registered Exporters should get such exports certified by the Authorised Dealer in Foreign Exchange in the process of passing their shipping documents through him. For this purpose, the following procedure has been laid down:—

- (i) Simultaneously with handing over his shipping documents to the Authorised Dealer in Foreign Exchange, the exporter should present to the latter in triplicate declarations as in Form 1 for exports made on outright sale basis and in Form 2 for exports on consignment basis. The specimen Forms 1 and 2 are given at Annexure I and II to this Public Notice;
- (ii) The Bank will certify and countersign the declaration after necessary verification with reference to the shipping documents. The document will then serve as a bank certificate;
- (iii) Thereafter the Bank will pass on one copy of the certificate along with a copy of the invoice to the licensing authority named in the declaration-cum-certificate, one copy to the exporter, and retain the third copy for its own record;

(iv) The exporter at the time of submitting his application for grant of import replenishment licence in accordance with the prescribed time schedule, will quote in the application, which will be commodity group-wise, the number and date of the certificates issued by the Bank for each of the shipments covered in the application.

4. In the case of exports made on consignment basis, the Authorised Dealer in Foreign Exchange will countersign and pass on the Bank certificate on Form 2, to the licensing authority only after realisation of foreign exchange. The exporters in such cases will be required to submit their applications for grant of replenishment licences during the month succeeding the quarter of payment. To this extent para 16 of Part "B", Section III of the Import Trade Control Policy Book for April, 1957-March, 1968 and para 198(3) of the Import Trade Control Hand Book of Rules & Procedure, 1967, may be deemed to have been amended.

5. With the introduction of above procedure, the requirement regarding production (along with the application) of copies of the various documents mentioned in para 2 above has been done away with. However, the applications, as usual, will be accompanied by T. R. 5 copies of list of items applied for, nomination and A. U. licence, if any.

6. Notwithstanding the above, the licensing Authority may, wherever considered necessary, call for any export document from the exporter.

7. This procedure will not apply in respect of exports of gem and jewellery items, cinematographic film, (excepted). In their case the existing procedure of submitting the various documents including the Bank Certificate indicating the realisation of foreign exchange will continue.
